UNIVERSITY ADMIT ELIGIBILITY PREDICTOR

Team ID	PNT2022TMID02482
Project Name	University Admit Eligibility Predictor

Project Objective:

College admission predictor is a working example to many students. This model helps the student on filling out the application forms as well as provides an idea about their prompted college by calculating their cut off.

This Application assigns the University based on the Scores. Hence, our proposed computer aided system will help the students to get the list of all colleges in which all get the admission at the click of a button.

The students enter their GRE, TOEFL, CGPA marks along with other necessary certifications.With this model, the students can very easily obtain the list of colleges available both in India and abroad. This has the additional benefit of reducing stress and predicting accurate results. The main objective of our system is to make the right choice of colleges and thus eliminating the consultation firms.
